Test Assessment for QA Interns

1. **Bug Title:** Incorrect Jewelry Size in Camera Mode

Bug Description:

1. Navigate to the website.
2. Click on "Camera" mode for jewelry try-on.
3. Select a piece of jewelry and allow camera access.
4. Position the jewelry on the image.
5. Observe that the jewelry size appears smaller than expected.

Expected Behavior: The jewelry size in the Camera mode should accurately reflect real-life proportions.

Actual Behavior: The jewelry size in Camera mode is smaller than expected, affecting the realistic try-on experience.

2.Bug Report: Eyewear Glasses Misalignment in Camera Mode

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Click on "Model" mode for eyewear glasses try-on.
   - Select a pair of eyewear glasses and allow camera access.
   - Position the glasses on the model's face.
   - Observe that the glasses are not fitting correctly on the model's face; they appear misaligned.
2. **Expected Behavior:**
   - The eyewear glasses in Camera mode should accurately fit and align with the model's face, providing a realistic try-on experience.
3. **Actual Behavior:**
   - The eyewear glasses in Model mode are misaligned and do not fit properly on the model's face, and shows as image, affecting the realism of the try-on experience.

3.Bug Report: Earrings Display Issue in Studio Mode

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Click on "Studio" mode for earrings try-on.
   - Select a pair of earrings and allow camera access.
   - Position the earrings on the model's ear.
   - Observe that the earrings are displayed as a picture instead of the actual pair.

2. **Expected Behavior:**
   - The earrings in Studio mode should be displayed as the actual pair selected, providing a realistic try-on experience.

3. **Actual Behavior:**
   - In Studio mode, the earrings are shown as a picture and do not accurately represent the selected pair, affecting the realism of the try-on experience.

4. **Bug Report: Duplicate Display of Bags in Try-On Mode**

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the "Bags" mode for bag try-on.
   - Select different bags and allow camera access.
   - Position the bags on the model's shoulder.
   - Observe that some bags are displayed more than once, creating duplicates.
2. **Expected Behavior:**
   - Each selected bag in the try-on mode should be displayed only once, providing an accurate and non-repetitive representation.
3. **Actual Behavior:**
   - In the "Bags" mode, some bags are duplicated, appearing more times than selected, leading to an inaccurate representation during the try-on experience.

5.Bug Report: No Models Available for Bag Try-On

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the "Bags" mode for bag try-on.
   - Attempt to select and try on bags.
   - Observe that there are no available models on which to try the bags.
2. **Expected Behavior:**
   - There should be a selection of models available for users to try on bags, allowing for a comprehensive and realistic try-on experience.
3. **Actual Behavior:**
   - In the "Bags" mode, no models are available for users to try on bags, preventing the intended interactive experience.

6.Bug Report: Incorrect Alignment of Necklace

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Enter the jewelry try-on section.
   - Select a necklace for try-on.
   - Allow camera access and position the necklace on the model or user.
   - Observe that the alignment of the necklace is incorrect.
2. **Expected Behavior:**
   - The necklace in the try-on mode should align accurately with the chosen position on the model or user, ensuring a realistic and visually appealing appearance.
3. **Actual Behavior:**
   - In the try-on mode, the necklace appears misaligned, not conforming to the intended position on the model or user, impacting the overall visual presentation.

Bug Report: Misplacement of Necklace Sets on Different Models

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Choose a necklace set designed to be worn as a set.
   - Allow camera access and attempt to try the set on different models.
   - Observe that the necklace sets do not fit correctly on every model, resulting in misplacement.
2. **Expected Behavior:**
   - Necklace sets should fit appropriately on all models, ensuring consistent and accurate placement for a visually appealing try-on experience.
3. **Actual Behavior:**
   - While trying necklace sets on different models, the sets do not consistently fit, leading to misplacement and negatively affecting the presentation of the jewelry.

Bug Report: Lack of Realism in Ring Try-On

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Select a ring for try-on.
   - Allow camera access and position the ring on the model's finger.
   - Observe that the ring does not appear realistic, giving the impression of a photo or image placed on the model's finger.
2. **Expected Behavior:**
   - Rings in the try-on mode should provide a realistic representation, seamlessly integrating with the model's finger, offering an authentic and immersive experience.
3. **Actual Behavior:**
   - During the ring try-on process, the ring does not exhibit realistic characteristics, creating the perception that a static photo or image is placed on the model's finger.

Bug Report: Lack of Realism in Bracelet Try-On

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Choose a bracelet for try-on.
   - Allow camera access and position the bracelet on the model's wrist.
   - Observe that the bracelet does not appear realistic, creating the impression of a photo or image placed on the model's hand.

2. **Expected Behavior:**
   - Bracelets in the try-on mode should exhibit realistic characteristics, seamlessly integrating with the model's wrist, providing an authentic and immersive try-on experience.

3. **Actual Behavior:**
   - During the bracelet try-on process, the bracelet lacks realism, giving the impression that a static photo or image is placed on the model's hand instead of a dynamic, realistically rendered bracelet.

Bug Report: Mismatched Jewelry in Pendant List

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Go to the pendant list.
   - Observe that the pendant list contains different jewelry items, not consistent with the expected pendant selection.
2. **Expected Behavior:**
   - The pendant list should only display pendant options, providing a consistent and accurate selection for users interested in trying on pendants.
3. **Actual Behavior:**
   - In the pendant list, there are different types of jewelry items present, creating confusion and inconsistency in the selection process for users interested specifically in trying on pendants.

Bug Report: Missing Images in PendantSets

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Go to the pendant list.
   - Observe that there are no images available for the jewelry items listed in the pendant section.
2. **Expected Behavior:**
   - The pendant list should display images for each jewelry item, allowing users to visualize and select pendants accurately.
3. **Actual Behavior:**
   - In the pendant list, no images are available for the jewelry items, making it challenging for users to make informed selections and diminishing the user experience.

Bug Report: Lack of Realism in Mangalsutra Display in Studio Mode

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Choose Mangalsutra for try-on in Studio mode.
   - Allow camera access and position the Mangalsutra on the model.
   - Observe that the Mangalsutra does not appear realistic; instead, it is displayed as an image.
2. **Expected Behavior:**
   - In Studio mode, the Mangalsutra should exhibit realistic characteristics, seamlessly integrating with the model, providing an authentic and immersive try-on experience.
3. **Actual Behavior:**
   - During the Mangalsutra try-on process in Studio mode, the Mangalsutra lacks realism, appearing as a static image rather than dynamically adapting to the model, affecting the overall authenticity of the try-on experience.

Bug Report: Missing Images for Sets set003 and set001

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Go to the sets section.
   - Observe that images for sets set003 and set001 are not available.
2. **Expected Behavior:**
   - Images for all sets, including set003 and set001, should be available for users to visualize and select during the try-on process.
3. **Actual Behavior:**
   - In the sets section, images for sets set003 and set001 are not available, limiting users' ability to view and try on these specific sets.

Bug Report: Missing Images for Ring "1000Plant"

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Go to the ring section.
   - Observe that images for the ring with the name "1000Plant" are not available.
2. **Expected Behavior:**
   - Images for all rings, including "1000Plant," should be available for users to visualize and select during the try-on process.
3. **Actual Behavior:**
   - In the ring section, images for the ring with the name "1000Plant" are missing, preventing users from viewing and trying on this specific ring.

Bug Report: Bracelets Displayed as Images Instead of Realistic

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Choose a bracelet for try-on.
   - Allow camera access and position the bracelet on the model's wrist.
   - Observe that the bracelet is displayed as an image, lacking a realistic appearance.
2. **Expected Behavior:**
   - Bracelets in the try-on mode should exhibit realistic characteristics, seamlessly integrating with the model's wrist, providing an authentic and immersive try-on experience.
3. **Actual Behavior:**
   - During the bracelet try-on process, the bracelet is displayed as an image rather than in a realistic way, diminishing the immersive quality of the try-on experience.

Bug Report: Duplicate Bracelets in Try-On Section

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the jewelry try-on section.
   - Choose bracelets for try-on.
   - Observe that some bracelets are duplicated, appearing more than once in the available selection.
2. **Expected Behavior:**
   - Each bracelet in the try-on section should be unique, without any duplicates, providing users with a varied and non-repetitive selection.
3. **Actual Behavior:**
   - In the try-on section for bracelets, certain bracelets are duplicated, negatively impacting the variety and leading to a repetitive selection experience.

Bug Report: Incomplete Display of the List Without Scrolling

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the specific section where the list is expected.
   - Observe that the complete list is not displayed entirely without scrolling.
2. **Expected Behavior:**
   - The complete list should be visible without the need for scrolling, ensuring a user-friendly and accessible experience.
3. **Actual Behavior:**
   - The list is not fully visible, and users are required to scroll to see the complete content, causing inconvenience and potentially missing information.

Bug Report: Missing Banner Image

Bug Description:

1. **Steps to Reproduce:**
   - Navigate to the website: https://sakshi.mirrar.com/.
   - Access the homepage or the relevant section where a banner image is expected.
   - Observe that the banner image is missing or not displayed.
2. **Expected Behavior:**
   - A banner image should be present on the homepage or relevant sections, providing a visually engaging and informative element.
3. **Actual Behavior:**
   - The banner image is not available, resulting in an absence of a key visual element that is expected to be present on the homepage or relevant sections.
